

Cooking Top, Induction Single Zone

Model: E1HDDEOMCT • Article no: 600883

Power supply: 400V 3Ph ~50-60Hz

A plug-in induction cooking top with a sealed heavy-duty glass-ceramic cooking surface. The induction creates a rapid heat transfer directly to the pan; no heat is dispersed into the environment. And the automatic pan detection means power is only transferred when the pan is present.

The model is designed for tabletop installations and has a glass touch display on top for maximum visibility and a 2-color user interface (white and red) for better readability.

The timer function can be used to set the cooking time, switching off the zone automatically at the end of the time set. And the self-diagnostics function makes the user aware of any dysfunction by showing an error code in the display.

Induction air filters are easy to clean and remove for monthly cleaning.

MAIN FEATURES

- One induction zone
- Suitable for pots and pans with a diameter from 120 mm to 340 mm
- Rapid heat transfer directly to the pan; no heat is dispersed into the environment
- Cord and plug included
- IPX4 water protection
- Lock function

Subject to change without notice.
For correct installation, refer to installation manual.

Technical data

Certifications & regulations

Certifications	CE
IP Class	X4

Dimensions & weight

Width, net (mm)	400
Depth, net (mm)	600
Height, net (mm)	152
Weight, net (kg)	19
Weight, gross (kg)	22
Volume, net (m3)	0.04
Volume, gross (m3)	0.05

Electric

Voltage (V)	400
Phase	3
Has neutral	No
Frequency (Hz)	50-60
Connection Cable, length (m)	1.5
Connector side	Bottom
Fuse (A)	16
Loading (kW)	5
Plug type	Schuko
